Preface

We are pleased to present External Trade Statistics Timor-Leste 2024, the eighth official publication of annual trade statistics for Timor-Leste. The statistics contained in this report show the patterns of international trade relating to Timor-Leste during the 2024 calendar year. Additionally, the report provides comparative annual data for 2020 to 2024.

This publication provides the trade statistics required for government, the donor community, NGOs, universities, research organizations and the private sector. This report is produced annually, along with the regular monthly trade data releases that began in January 2004.

In addition to this publication the INETL, IP has now established a comprehensive Trade statistics database. On request, this database can provide detailed statistical data that is presented in this annual publication.

External Trade Statistics are compiled from declaration made to the Timor-Leste Customs Service by importers and exporters, or their agents. We would like to express our thanks for the cooperation of the Customs Service in providing the base data used to compile this publication.

This publication is a result of a team at INETL, IP Trade Statistics Section, composed of Mr. Eduardo Martinho Ximenes and Ms. Laura de Jesus Moreira under the Director of the National Directorate of Economic Statistics, Mr. Cristino Gusmão.

The NSO kindly advise users to read the concepts and definitions in the initial section of this report to fully understand the statistical data presented.

The NSO would welcome any comment from users of this publication for improving the future Trade statistics releases.

Introduction

With the publication of this annual external Trade Statistics report the *INSTITUTE NATIONAL STATISTICS OF TIMOR-LESTE* provides the latest available data on Imports and exports for Timor-Leste during the 2024 calendar year. As a " stand alone " indicator, Trade statistics form a valuable source of information on the economic health of a country, as well as being used by wide variety of planning and business organization. Statistics on imports and exports form a valuable component of a country's statement of economic transaction in the National Accounts and Balance of Payments. Accordingly, internationally comparable Trade Statistics that are accurate, detailed and timely have always been a statistical priority. Such information is vitally important for the planning and future development of Timor-Leste.

The information contained in this report aggregates the regular monthly releases of Trade Statistics issued by the Directorate during 2024. Additionally, there are tables whose aim is to provide a more comprehensive picture of trading partners than is possible from viewing a single month's data. As the Trade Statistics database grows it is now possible to present comparative annual data.

The Statistical methods and concepts used to compile data for this report closely follow the recommendation of UN publication “International Merchandise Trade Statistics: Concepts and Definitions (IMTS), Rev.2" wherever possible. The objective of External Trade Statistics, 2024 is to provide an aggregate view of import and export statistics for the 2024 calendar year, accepting the fact that more detailed analysis of specific commodities is available by contacting the INSTITUTE

Concepts, Definitions and Explanation of data

The following section aims to provide additional information on the methods used to collect and analyze the Trade Statistics contained in this report. As already mentioned, these trade statistics are compiled using the UN "International Merchandise Trade Statistic: Concepts and Definitions (IMTS, Rev.2)" as a guide and quotations from that publication are included here.

Source of Data

Data is obtained from imports and exports documents lodged with the Customs Service of Timor-Leste. This data is then processed by the National Statistics Directorate to produce external Trade Statistics that conform to United Nations statistical concept.

The ASYCUDA (Automated System for customs Data) system became operational in the Timor-Leste Customs Services in October 2003. This system provides the basic data from which external trade statistics are prepared. Currently this system provides coverage of all imports and exports from the main airport and seaports plus parcel post. Some documentation from "small" ports is also processed at the Dili customs Office, however it should be noted that approximately 4% of entries (those not lodged electronically via ASYCUDA), may not be included in the Trade Statistics.

Time of recording

Imports and Exports Statistics are compiled by Date of Assessment. This is the date on which the duty to be paid (if any) is assessed by the Customs Services, in effect "clearing" the goods for import/ export.

System of Recording

External Trade Statistics are compiled in close accordance with the United Nations International Merchandise Trade Statistic Concepts and Definitions. The system is known as the "general" system of recording trade statistic as defined in UN statistic papers M52. Under this system, imports include all goods entering the economic territory of a compiling country and export includes all goods leaving the economic territory of a compiling country. The "economic territory" includes bonded warehouses.

Merchandise Trade

Merchandise Trade is the import or export of goods that alter the nation's stock of material resources as a result of their movement in or out of the country.

BEC

The original Classification by Broad Economic Categories (BEC) was produced in 1961 to provide a means for international trade statistics to be analyzed by broad economic categories such as food, industrial supplies, capital equipment, consumer durables and consumer non-durables. The original BEC was linked to the Standard International Trade Classification.

Non Merchandise trade	Goods which do not permanently add to the material resources of a country are identified as “Non Merchandise” trade. Some common examples would be temporary imports, returnable containers, goods in transit and goods consigned to foreign embassies within a host country.
Country Statistic	Import statistic are available by "Country of Origin" - the country of manufacture of the goods. Export statistic are available by "Country of Destination" -he country of final destination as shown on the export declaration.
Commodity Classification	Goods are classification by Customs using the Customs Tariff that is based o the international "harmonized Commodity Description and Coding System', or "HS" as it is sometimes called.
Limitations of Data	External Trade statistics are compiled from documents provided by exporters and importers to the Timor-Leste Customs Services. Considerable reliance is placed on the exporters/importers and their agents submitting correct codes and information. Before the data is released for statistical purposes it is validated and detected errors corrected. However no warranty can be given that this information contains no errors. It should also be noted that goods crossing international borders without appropriate Customs documentation would not be included in Trade Statistics.
F.O.B. (Free on Board)	Method of valuation for Exports. This valuation includes the cost of the goods plus their delivery on board ship ready for departure.
C.I.F. (Cost, Insurance and Freight)	Method of valuation for Imports. This valuation includes the cost of the goods, cost of insuring the goods during transportation and cost of freight.
Re Exports	Re Exports are goods leaving the country that were previously imported into Timor-Leste and comprise less than 50 percent Timor-Leste value by content at time of export.

Summary Trade Statistics Timor-Leste in Thousand of US Dollars

Key Statistics	2020	2021	2022	2023	2024

Largest value Trading Partner (Exports)	Japan 71,172	Singapore 129,089	China 117,535	China 76,075	Thailand 51, 139

Trade Analysis – Timor-Leste (2020–2024)

Exports

Timor-Leste's primary exports are oil and natural gas extracted from offshore fields in the Timor Sea. These commodities dominate the country's export sector, making Timor-Leste highly dependent on global energy prices. In 2024, total exports reached $73 million, representing a sharp decline of 43% compared to 2023.

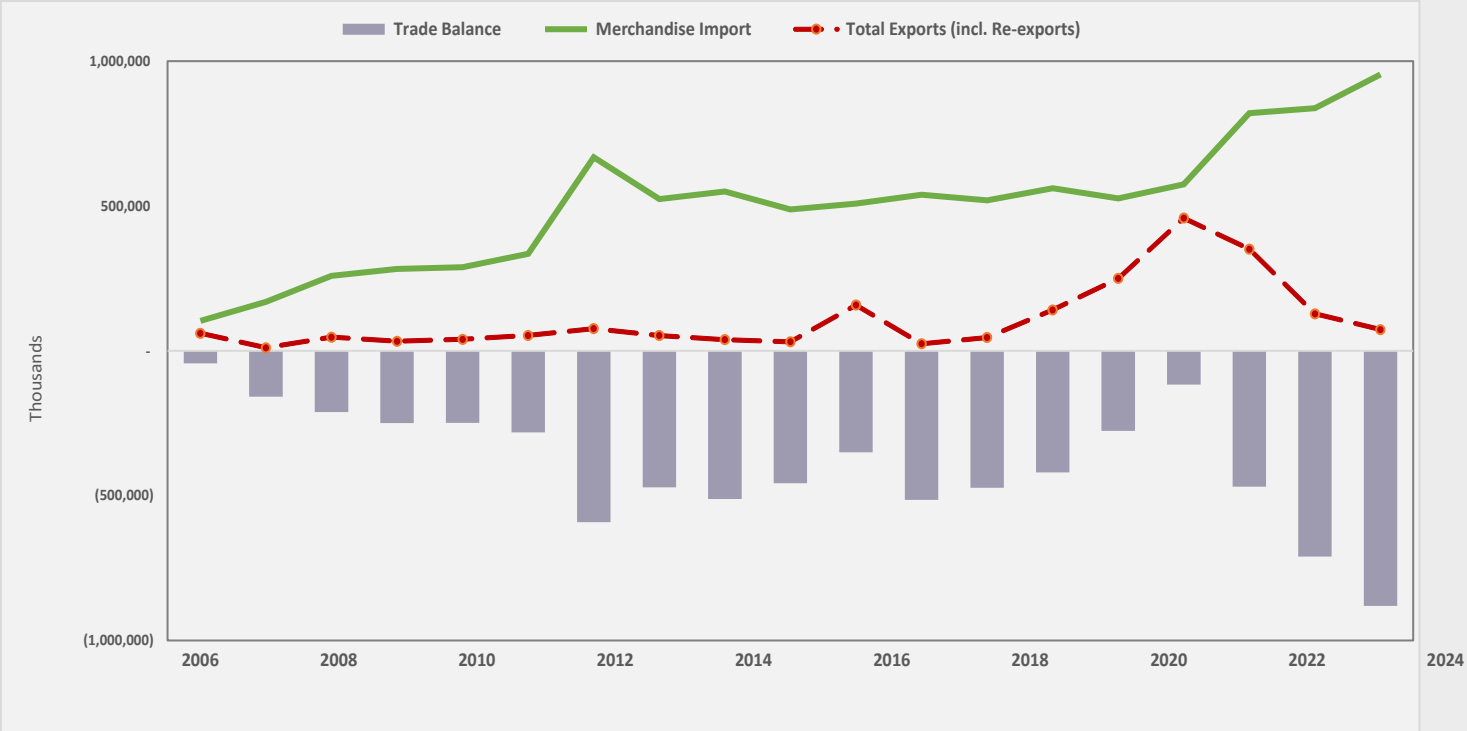
The steep drop in export earnings was mainly driven by a significant decrease in oil exports due to reduced production. In contrast, coffee exports rose slightly by 15%, supported by higher global coffee prices. Despite this positive development, the overall export performance in 2024 reflects the country's vulnerability to fluctuations in the energy sector.

Merchandise Imports

Timor-Leste imports a wide variety of goods, including food, fuel, machinery, vehicles, and construction materials. Due to its limited domestic production capacity, the country depends heavily on imports to meet consumption and development needs.

In 2024, merchandise imports amounted to $953 million, marking a 13% increase from 2023. This growth was driven by a 19% rise in capital goods and a 29% surge in consumption goods, highlighting continued demand for imported products to support infrastructure, economic activities, and household needs.

Trade Balance Trends



Key Insights

- Timor-Leste runs a trade deficit due to high imports of machinery and fuel.
- The economy is heavily reliant on oil exports, making it vulnerable to oil price fluctuations.
- Diversification into agriculture and tourism could reduce this reliance.

Trade Balance
The trade deficit widened further to $880 million in 2024, reflecting persistent import dependence and declining export revenues.

721090	Iron or non-alloy steel; flat-rolled, width 600mm or more, plated or coated with materials n.e.c.		107,278
		Viet Nam	89,643
		Hong Kong	10,007

HS Code	Goods Description	Country of Origin	Value (US Dollar)
7214	Iron or non-alloy steel; bars and rods, not further worked than forged, hot-rolled, hot drawn or hot extruded, but including those twisted after rolling		10,956,349
721410	Iron or non-alloy steel; bars and rods, forged, hot-rolled, hot-drawn or hot-extruded, but including those twisted after rolling		28,705
		Indonesia	17,006
		China	11,498
721420	Iron/steel bars & rods, hot-rolled...,twisted, or with deformations from rolling		9,527,649
		Indonesia	5,844,368
		Hong Kong	2,485,186
		China	1,198,096
721491	Iron or non-alloy steel; bars and rods, hot rolled, hot-drawn or hot-extruded, n.e.c. in heading no. 7214, of rectangular (other than square) cross-section		2,479
		Indonesia	2,479
721499	Iron/steel bars and rods, hot-rolled, hot-drawn or hot extruded, nes		1,249,551
		Indonesia	866,861
		China	343,617
		Hong Kong	39,074
7228	Alloy steel bars, rods, shapes and sections; hollow drill bars and rods, of alloy or non alloy steel		102,620.29
722830	Steel, alloy; bars and rods, hot-rolled, hot-drawn or extruded		38,712.12
		Indonesia	25,825.86
		China	12,886.26
722860	Steel, alloy; bars and rods n.e.c. in heading no. 7228		54,605.99
		China	43,471.77
		Indonesia	9,889.44

HS Code	Goods Description	Country of Origin	Value (US Dollar)
8413	Pumps; for liquids, whether or not fitted with measuring device, liquid elevators		1,453,350
841311	Pumps for dispensing fuel or lubricants, for filling-stations or garages		69,824
841319	Pumps for liquids, with or designed to be fitted with a measuring device		19,382
		Indonesia	14,992
		China	3,659
841320	Hand pumps for liquids (excl. those of 8413.11 or .19)		124,260
		Indonesia	42,327
		Singapore	39,405
		China	36,710
841330	Fuel/lubricating/cooling-medium pumps for internal combustion engines		121,851
		Indonesia	61,322
		Singapore	21,146
		China	11,304
		Japan	10,010
841350	Reciprocating positive displacement pumps for liquids, nes		162,947
		Indonesia	148,107
		China	13,508
841370	Centrifugal pumps for liquids, nes		158,675
		Indonesia	84,752
		Australia	26,404
		China	13,144
841381	Pumps for liquids, nes		374,686
		Indonesia	195,328
		China	126,460
		Australia	25,772
		Singapore	11,090
841391	Parts of pumps for liquids		150,451
		China	70,456
		Indonesia	45,293
		Finland	15,079

HS Code	Goods Description	Country of Origin	Value (US Dollar)
8415	Air conditioning machines; comprising a motor driven fan and elements for changing the tem perature and humidity, including those ma chines in which the humidity cannot be sepa		2,656,845
841510	Air conditioning machines; comprising a motor driven fan and elements for changing the tempera ture and humidity, of a kind designed to be fixed to a window, wall, ceiling or floor, self-contained or		1,945,572
		Indonesia	1,150,587
		China	284,329
		Hong Kong	137,969
		Malaysia	118,754
		Singapore	112,427
8418	Refrigerators, freezers and other refrigerating or freezing equipment, electric or other; heat pumps other than air conditioning machines of heading no. 8415		2,784,580
841810	Refrigerators and freezers; combined refrigerator freezers, fitted with separate external doors, elec tric or other		927,163
		Indonesia	847,208
		Bangladesh	49,205
		Singapore	10,741
841830	Air conditioning machines; comprising a motor driven fan and elements for changing the tempera ture and humidity, of a kind used for persons,		873,865
		Indonesia	487,985
		China	323,518
		Bangladesh	26,616

Coffee is Timor-Leste's most important non-oil crop. It is a key export commodity and contributes to the livelihood of almost 35 % of Timorese households. Coffee is also one of the sector most threatened by climate change. Extended rainfall, in particular can impact the volume of coffee harvest, as well as the quality of the coffee. This impact the coffee farmer's income and coffee business cannot compete in the thriving global market.
